## Summary

Enthusiastic and self-driven Full Stack Web Developer with hands-on experience in building scalable web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Skilled in both frontend and backend development, database design, API integration, and responsive UI/UX. Passionate about clean code, problem-solving, and continuous learning.

## Education

### Centurion University of Technology and Management

Bachelor of Computer Science Engineering

Sep, 2022 - May, 2026

## Technical Skills

HTML5, CSS, JavaScript, TypeScript, React.js, Node.js, Express.js, SQL, MongoDB, AWS Docker

## Soft Skills

Collaboration, Problem-solving, Communication, Time management, Result-oriented

## Additional Skills

Leadership, Adaptable, Flexible

## Languages

English, Hindi, Bengali, Oriya

## Certifications

- AWS academy graduate - AWS academy cloud foundation
- IBM Cloud Computing Fundamentals
- Avalance 24 hr Bootcamp.
- Diploma in Information Technology

## Work Experience

### Edunet Foundation Summer Internship

Jun, 2024 - Jul, 2024

Summer Intern

Edunet Foundation is a social enterprise that focuses on bridging the gap between academia and industry in India, with a mission to enhance student employability, foster innovation.

- Completed IBM SkillBuild certifications in Cloud Computing, AI, and Gen AI.
- Attended exclusive webinars and mentorship sessions from IBM professionals on cloud architecture, AI trends, and industry applications.
- Collaborated with peers from diverse backgrounds, promoting a spirit of innovation, problem-solving, and design thinking.

### Systecks Solutions LLP.

Mar, 2024 - Apr, 2024

Front End Web Developer

Systecks Solutions LLP is an IT Services and IT Consulting firm specializing in web and Android application development.

- Developed user interface mockups and prototypes that clearly illustrate how sites function and look like.
- Maintained up-to-date knowledge of industry trends, standards and technologies related to UI and UX design.

## Projects

### Cloud-Based Student Mentoring System Website

Aug, 2024 - Oct, 2025

<https://std-mentoring-edu.netlify.app/>

Developed a responsive(prototype) web-based platform to facilitate structured student mentoring at the university level.

- Implemented secure form submissions, data storage, and role-based access for mentors, students, and parents.
- Integrated features like report uploads, performance tracking, feedback collection, and editable student profiles.

### University-Based InternPortal

Feb, 2025 - May, 2025

Developed a University-Based InternPortal using the MERN stack to streamline internship applications, approvals, and tracking for students and faculty.

- Implemented real-time internship updates and status tracking using Node.js and React, enhancing user experience and responsiveness.
- Integrated secure student-faculty login with JWT authentication and MongoDB role-based access control.
